

## Core Competencies

AVATAR Computing, Inc., founded in 2005, provides custom technology solutions to corporate, state, and government agencies. Ranging from software development, to database management, website design, and help desk support, our ability to enhance workflow is based on the simple principle of listening to our clients. Coupled with a true passion for technology, AVATAR Computing melds creativity with its past experiences to stay true to the mission and support the warfighter. Our strengths include innovation, efficiency, and agility. We pride ourselves in taking a proactive approach to technology—we see a problem, we want to fix it. Our core solutions have proven to strengthen communication, simplify process, and bolster presentation. AVATAR Computing welcomes opportunities that align our strengths to those of our future industry partners.

## Differentiators

**Technical Tenacity** — AVATAR's coined phrase defining our refusal to dismiss a technical problem — we will fix it.

**Reach Back** — AVATAR promotes a culture of collaboration. If you don't know the answer, one of our team members is happy to help.

**Passion** — There's an innate passion for technology, to serve others, and to make an impact. With an exceptionally high retention rate, we like to think there's a passion for AVATAR too.
